

Our commitment to Health, Safety, Security and Environment

We believe every incident is preventable and are committed to pursuing the goal of no harm to people and protecting the environment.

We call this Goal Zero.

To make this commitment we will in all aspects of our operations:

- Demonstrate visible and felt leadership for health, safety, security and the environment
- Apply our risk management processes and ensure that our business plans consider associated HSSE risks, including potential HSSE and climate change impacts
- Endeavour to eliminate hazards and reduce HSSE risks associated with our workplaces, products and services
- Conduct our business in an environmentally responsible manner, protecting the environment and reducing our environmental impact by reducing emissions and waste
- Create measurable objectives and targets and assess and report to reduce incidents
- Provide safe and healthy working conditions for the prevention of work-related injury and ill health
- Encourage people to intervene, report unsafe situations and have positive conversations
- Provide appropriate information, instruction, training and supervision
- Comply with our legal obligations and company procedures
- Communicate, support and consult with employees, their representatives, contractors and stakeholders
- Maintain and regularly test response systems and resources appropriate to all types of emergency situations that could potentially arise
- Audit and maintain systems to verify that our HSSE policies are effectively implemented, identify and manage risks and to prevent incidents
- Conduct regular reviews and share learnings to continuously improve all aspects of our HSSE management system and performance

"You have my full support to stop operations at any time if you are concerned about the safety of yourself or others."

Scott Wyatt CEO
Viva Energy Group Limited
